

Eighteen-Zone 600W Audio Distribution System with Fire Voice and MNS (UL2572/ UL864)**

Applications

About TOA

- Experience:
- Over 80 years experience
 - World leader in commercial & professional audio products
 - World renowned installations

- Quality:
- All audio products have a five year warranty
 - Reliable and durable: best MTBF in the industry selection
 - Broadcast range of products in the commercial audio industry

- Customer Service:
- Excellent technical support team expert engineering for free design services
 - Extensive representation across the country
 - Customized training
 - Certifications for engineered products
- Commitment:
- Competitively priced quality products and solutions with excellent customer services

Audio Distribution System**

Fire Alarm Speakers

Meets UL 1480 UUMW

HY-BC580U back can

Ceiling Mount Speaker: PC-580RU, PC-580RVU

- High-performance, cost effective ceiling speaker ideal for mass notification systems, voice evacuation, emergency and everyday paging and BGM
- Meets UL 1480 UUMW and UL 2043 (use in air handling spaces) when using the HY-BC580U back can
- 8" in-ceiling speaker for high audio output and clear audibility
- 25V & 70V transformer taps up to 5W

Paging Horn: SC-630TU

- A high-impedance speaker featuring a built-in 25 V/70 V transformer
- Weather-resistant for reliable operation in demanding environmental conditions (IP65)
- Certified to UL 1480 UUMW

Box Speaker: BS-680U

- 70V/25V line, wall or in-wall mounting box speaker.
- Certified to UL 1480 UUMW / UEAY (Mass Notification System) and CAN/ULC-S541-07 standards

ADDITIONAL KEY FEATURES

- TOA high quality audio (50Hz - 20kHz)
- UL864 (Fire Voice) / UL2572 (MNS) / CAN UL S576 (MNS) certified system (when installed per the manufacturer's instructions)
- Up to six non-emergency pre-recorded messages stored as .wav files
- Up to four emergency pre-recorded messages stored as .wav files

Pendant Speakers

World's First Mass Notification Pendant Speaker

Pendant Speakers: PE-304BU/WU, PE-604BU/WU

- World's first Mass Notification Pendant Speaker.
- 8Ω and 25V/70V/100V operation, changeable with a rotary switch.
- Certified to UL 1480 UUMW / UEAY

Plenum Rated Speakers

F-122CU2

F-2852CU2

F-2322CU2

F-2352CU2

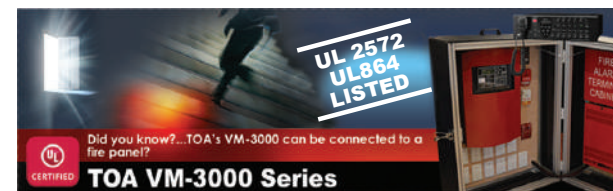

Ceiling Speakers:

F-122CU2, F-2852CU2, F-2322CU2, F-2352CU2

- Wide Dispersion ceiling speaker for use in mass notification, voice evacuation, emergency paging and everyday paging and background music.
- Certified to UL 1480 UUMW (UEAY), UL2043, CAN/CSA C222.2 No. 205 (UEAY7).
- Certified to UL 1480 UUMW (UEAY), UL2043

Emergency Voice Alarm

Emergency Voice Alarm System: VM-3000 Series

- Compact-size multi-functioned amplifiers.
- Max. 15 audio inputs and 60 speaker zone outputs with 2 audio bus lines.
- Max. 80 control inputs and outputs for system integration.
- Built-in voice announcement, surveillance, tone signals and speaker zone attenuators.
- Meets UL2572 and UL864 (VM-3240VA, VM-3240E, VX-2000DS, RM-200M S) certification.

RM-200M

RM-300MF

RM-320F

UL2572 & UL864 Certified

TOA Corporation's VM-3000 Series Emergency Voice Alarm System is certified to UL2572 and UL864 (VM-3240VA, VM-3240E, VX-2000DS, RM-200M S) standard for Mass Notification Equipment.

- Emergency alert tones for each emergency message customizable and stored as separate .wav files
- Comprehensive fault monitoring and reporting for all Emergency functions
- Speaker line fault monitoring and reporting per zone
- VM-3240VA capable of supporting 9 extension amplifiers (60 zones at 2000W)

- Assignable priorities for non-emergency signals (music/paging)
- Pages/pre-recorded messages may be programmed to override or be mixed with BGM
- Zoned non-emergency paging from RM-200MPS paging stations
- Programmed by free PC software, PC not required for operation
- Can be used with any UL certified addressable fire alarm panel
- Hardware lockout of LAN port for extra security
